of the finest plays that has ever visited Wichita was the "Cattle King" which appeared here last night. It was poorly attended owing to the fact that the people were not aware of its merits. The scenery was grand beyond discription, the octing superb, the costumes extravagantly

Pedro, and in fact it was the most realistic representation of western life ever presented in this city. Three horses and one along were on the stage and they ran about with as much. about with as much freedom apparently as if they were on open plains. The marriage scene on horseback and the subsequent persuit of the happy couple by the villianous Don Pedro was simply grand. It is one of the few shows that come to Wichita which one feels like writing up properly, but unfortubately circumstandon't permit in this issue of the EAGLE.

Mr. Heinrich Copried, the proprietor of Conried's Comic Opera Company, is the American agent of all the German authors and composers. On many occasions Mr. Conried while in Europe, had represented to the leading composers that a comic opera with an American subject would prove very profitable in this country where the light operas have always met with such generous patronage.

When it is known that Mr. Conried has collected over \$30,000 as royalty on "The Beggar Student" alone, some idea may be ormed of the revenues which the foreign authors and composers receive from this country, When Mr. Conried was in Vienna in the summer of 1889, he impressed Carl Millbecker, the composer of the 'Black Hussar' and the "Beggar Student' so strongly with the idea of an American subject, that the famous musician readily agreed to the idea, and "Poor Jonathan" was written. The American subject turned out to be a happy experiment. The opera had a tremendons success in Vienna on its first production, where it ran for more consecutive nights than any previous

THE RAILWAYS.

The Decision of the Arbitrators in the Matter of Kansas Round-Trip Rates.

Chicago, March 26.—The controversy in regard to local round-trip passenger rates in Kansas has probably been settled for good by the decision of the arbitrators seriected to dispose of the matter. The arbitrators were Chairman Walker of the Western association, Chairman Finley of the Western Passenger association and Vice President Ripley of the St. Paul road. The case resulted from the action of the Santa Pe, in making local round-trip rates between all points in Kansas where the first class one-way rate is \$5 or under, the round-trip rate being 90 per cent, of double one-way rates. The Rock Island opposed this action and made a complaint to Chairman Smith of the Transmissouri association, who decided against the Atchison. An appeal was taken by the Atchison to the association, and the chairman's decision was reversed by that body.

The Rock Island then appealed to arbitration, the result of which is a sort of compromise decision—not an absolute defeat for either party to the dispute. The CHICAGO, March 26.—The controversy in

WALT WHITMAN DEAD. PHILADELPHIA, March 25.—Calmir and peacefully, like a child asieep, Walt Whitman passed away this evening. He had been weaker than usual for some days past, but, for some reason, a knowledge of his condition did not become public. He had a sinking spell last night, but recovered his condition did not become public. He had a sinking spell last night, but recovered somewhat. Again this afternoon he began to sink, and a message was hurridly sent for his physician, Dr. McAllister, who reached the dying man's bedside shortly afterwards. The doctor found the aged poet in a dying condition and so informed those around his bedside. He asked the patient if he suffered any pain, and the whispered answer was "No." Ten minutes before his death he said to his attendent. before his death he said to his attendent, "Wary, shift me." They were the last words uttered by Whitnau. His breath became fainter and fainter and at 6:23 o'clock p. m. he passed away. The news of his death was cabled to Lord Tennyson and other friends in England; Dr. Buck of Ontario, his biographer, and friends in

forthe Democratic revolt in this state. Mr. Grace, in part, says:

"It did not feel that it was absolutely necessary for the success of the Democratic party to appease the feeling which exists in this state against the machine, by teaching a fair compromise in Chicago. I do not think that I would take upon myself the burden of labor which I have already assumed; but, as a matter of patriotic duty to the state and as a matter of salvation for the narty next fail. I think of salvation for the party next fall, I think it will be easy to show that our work will be productive of immense good. Of be productive of immense good. Of one thing I can assure your that the men who will represent the state Democrats at Chicago will act with prudence and good judgment,—for the interest of the Democratic party, and not for the interest of any individual. Of this you may be assured; and it is for this reason that I hope for your aid in securing us admission to the convention as delegates. It is inconceivable to me that the south should for a moment think of sitting down on Clevemoment think of sitting down on Cleve-land, who is the only man in our time who has made the Democratic party respected by the really conservative ele-ments of the north, and who has been the means of railying within the Democratic ranks some of the most intelligent and most patriotic members of every commu-nity in the northern states."

Y., says that George Mowbray tells a story of terrible expelty to lanorers on the Adironack nd St. Lawrence railway. He is a white laborer. One night a shanty in which a lot of negroes and Italians were quartered burned, and four negroes were burned to death. The boss said that the men had burned the shanty, so they could build an other or not have work on the road. The fare was sour bread and molasses and said lish and sait pork. Four waits men and 100 negroes while attempting to escape were fired upon by the guards. The partners were firled and two wounded.
